

SHOWER DOORS

Infinity Bath & Kitchen Ltd

Where The Possibilities Are Endless

Door Maintenance

- Clean your shower doors after every use. Use a squeegee to wipe water and soap residue off the interior. If you have hard water, spray the door with a solution of 1/3 white vinegar and 2/3 water prior to wiping.
- Wipe your shower door track regularly with a dry cloth after showering. MAAX offers unique shower door systems: the Sure-Glide and EZ Kleen systems help prevent water and soap accumulation, but do still require periodic wiping.
- Replace shower door gaskets (horizontal and vertical) if there is any tear or if they become discolored. Gaskets are easy to purchase and change, however, specific showers require specific models.
- Do not use abrasive cleaners, scrapers, metal brushes, or any items or products that may scratch or dull the surface.
- Regular disinfection provides an effective defense against various types of bacteria that can develop in the deposits that build up over time in all bathtubs and showers. For daily maintenance cleaning, use a moist cloth and gentle liquid detergent
