Level A Crane Operator

Job Summary:

A&T is one of the Thompson Okanagan's top developers and general contractors and has celebrated more than 25 years of exceeding client expectations through the creative use of space, quality craftsmanship and attention to detail.

Led by strong business ethics and community-minded values, we are known for our high standards in the commercial and residential building industry. These standards guide our team of construction and technical experts, as well as our qualified trades partners, toward exceeding each client's expectations – on time and on budget – on every project.

It is this commitment to quality product and workmanship, and client care that has propelled A&T's growth and success since 1992, and has resulted in numerous return clients and a long list of prestigious industry awards.

We are currently hiring for a **Level A Crane Operator** who is highly accountable, energized and motivated, to operate a Potain Igo T-130 self-erecting tower crane on one of our project sites in Kamloops BC.

Responsibility:

As an experienced Crane Operator you will be reporting directly to the Superintendent and Project Manager and/or partners of the company. This position is responsible for operating the tower crane on a day to day basis as well as helping to develop and implement the crane safety program and to plan and schedule all lifts. The Crane Operator will also be responsible to supervise and oversee operation of the crane by Level B operators.

Though the operation of the crane will be the primary duty the ideal candidate will be willing to perform general construction related duties when the crane is not in use.

This position is available to start immediately. Work hours will typically be 8-10 hours per day, Monday to Friday with overtime or weekend work to suit project requirements.

The Crane Operator's primary responsibilities for A&T consist of the following:

- Maintain safe operation of the crane and of all lifts as top priority.
- Operate the on-site tower crane and perform or supervise all lifts on a day to day basis.
- Assist with creation and implementation of safe lifts plans and procedures.
- Ensure site compliance with all regulations and requirements of Worksafe BC and Crane Safety BC.
- Perform daily inspections of the crane and rigging and notify the Superintendent immediately of any concerns or irregularities.
- Perform weekly light maintenance (greasing) of the crane in accordance with the manufacturer's recommendations.

- Supervise Level B operators when required.

Qualifications / Abilities:

The Crane Operators' function is essential to the successful operation of projects. He/she must have the following skills/ abilities.

- Must have current valid Level A certification to operate a self-erecting tower crane in British Columbia
- 5-10 years' experience operating cranes with a solid safety record.
- The ability to get along with people and to communicate in a professional manner with supervisors, co-workers and other trades on site.
- Ability to carry out the duties described in the job description in an efficient manner.
- Ability to work in a team setting

This **full-time position** requires a motivated individual who demonstrates integrity, honesty, energy and teamwork to be a fit within our culture. A&T offers the opportunity to work on challenging, high profile projects and provides competitive compensation to the qualified candidate including:

- Paid training opportunities
- Volunteer & social activities
- Competitive wage

Please **email** all resumes to **Gary Reed** and **Brandon Lolli**. We thank all of those who apply, however only candidates selected for an interview will be contacted. If you have any questions regarding this position, please contact Brandon at 250-572-1739 Gary Reed – gary@aandt.ca Brandon Lolli – Brandon@aandt.ca
